Lethbridge Picnic A Grand Success

Thursday was surely a red-letter day in the history of The Pass, and more especially in the history of the rising town of Blairmore, when the Independent Order of Oddfellows, under the auspices of the three Lethbridge lodges, gathered for their annual picnic.

This is the first Oddfellows picnic to be held at this point, and that everyone who attended were impressed with the adaptability of Blairmore as a holiday resort there is no doubt, for all seem to wear smiles broader than their features could really accommodate and speak in terms of our scenery, which give assurance that this town will be made a rendezvous as a picnic resort and magnet for excursionists.

The town was handsomely dressed in colors befitting the occasion and displaying taste—the part of the decoration

was the work of the various committees. Citizens in general turned their hands to lend assistance in the effort to make Blairmore appear slightly more than the ordinary village town which would appear an impossibility to those whose first opportunity it was to see even what we have to boast of in location and scenery.

The special excursion train from eastern points arrived at 11:30. This train was made up of twelve cars and landed over eight hundred people, most of whom were from Lethbridge. Many hundreds also arrived by the "local" from west about an hour later.

The members of the local lodge were lined up near the station ready to have their forces augmented by Macleod, Pincher Creek, Conroy, March, Taber, Grassy Lake, Claresholm, Coleman, Michel and the three Lethbridge lodges. The procession comprised over nine hundred men, including the Coleman brass band.

Floats formed an important feature of the procession. That of the F. M. Thompson Co. displaying their line of business and conveying a Mafat coffee grinder, took first prize. This float was certainly a work of art and its neatness and blending of colors were really attractive. The second prize was awarded Messrs. Borzy and Debbi, who demonstrated the Oddfellows' hospital work.

Their float was eloquent of much attention and admiration. The ship represented the sickbed, the patient, nurse, doctor and attendants, and was certainly unique as well as very original. Third in order was a representation of Smallwood's blacksmith shop, which was also good. Brisco's Store for men took the fourth prize. The judges in the float competition were C. J. Eskola and Fritz Sick, of Lethbridge, and Rev. W. H. Manchester, of Blairmore.

Starting from the depot at 12 sharp, the procession marched to Seventh Avenue, where they

turned to State Street, thence south by Tenth Avenue, west by Victoria Street and north to the picnic grounds via Sixth Avenue. Here preparations had been made for the visitors and for the carrying out of the long programme.

After the contents of many baskets had been salvaged and the waitresses at the hotels and restaurants had been taxed in their efforts to satisfy the hungry folk from the picnic, the programme was started at 2 p.m. The programme was in the following order:

Running Broad Jump—W. Turner, 2nd H. E. Lyon.
High Jump—J. A. McDonald, 2nd W. Turner.
Tether Race (50 yards)—Miss M. Reid, 2nd Miss Hilda Dault.
100-Yard Dash (men)—Arthur Williams, 2nd Alex. Jackson.
50-Yard Dash (boys under 16)—W. J. Evans, 2nd Donald Macleod.
50-Yard Dash (boys under 10)—Edith Boyd, 2nd George Lyon.
50-Yard Dash (girls under 10)—Miss Drummond, 2nd Miss Baird.
Tether Race—H. E. Lyon, 2nd W. Turner.

For Men's Race—H. W. Thompson (weight 240), 2nd H. E. Lyon (weight 225)—in 4 min. 45 sec.
High and Spout Race—Miss Drummond, 2nd Miss Hilda Dault.
50-Yard Dash (girls under 16)—W. J. Evans, 2nd Donald Macleod.
Tether Race (girls)—Miss Williams, 2nd H. E. Lyon.
Tether and Seede Race—Miss Gladys Parke, 2nd Miss Grace Turner.

Putting the Shot—James Boyd, 2nd J. Frayne, of Lethbridge.
Three Legged Race—Williams and Smith, 2nd Boyd and Patterson.
Blairmore defeated both Lethbridge and Coleman in football, all the goals being scored by Blairmore.

The Coleman brass band of twelve pieces rendered good music throughout the day.

On the grounds were a number of refreshment booths, which assisted materially to fill the requirements of all present.

A large dancing pavilion was in readiness on the grounds. This was kept busy by the lovers of the terpsichorean art. The committee in charge deserve great credit for the successful issue of Blairmore's Red-Letter Day. Not a hitch occurred anywhere in the day's proceedings, and if anyone failed to acquire their share of pleasure and enjoyment—the committees are not to blame. This is the second successful picnic held in Blairmore this season, and they form but the initial of a long list of picnics and excursions which are sure to be abetted by the attractiveness of Blairmore for such events.

Officers of Crows' Nest Encampment Installed

E. Loutner, D.D.G.P., and G.W. Patterson, P.C.P., of Lethbridge, came to town on Wednesday night and installed the officers of Crows' Nest Encampment No. 8. The new officers are: Junior Past Chief Patriarch, F. Debbi; Chief Patriarch, W. J. Bartlett; High Priest, R. O. Green; Senior Warden, H. E. Berry; Recording Scribe, A. Morency; Financial Scribe, H. G. Bigelow; Treasurer, J. Montabelli; Junior Warden, F. E. Hinde.

T. D. Bence came over from Creston this week.

Council Meeting On Monday Night

The adjourned meeting of the Blairmore council was held on Monday night. Mayor Lyon, councillors Drain, Hinde, Sinclair, Macleod and Beebe being present.

A number of correspondences were received, which included letters from the Pacific Coast Pipe Co., W. M. Campbell, Forest City Paving Co., H. T. Lloyd, C. H. Burgess & Co.

W. M. Campbell on behalf of W. A. Malcolm, informed the town council that unless payment be immediately made steps would be taken to recover the amount due W. A. Malcolm for lots agreed upon by the town last year. The lots in question were chosen last year by the ratemakers as the most desirable location for the fire hall and municipal offices. The secretary was instructed to write Mr. Campbell, informing him that as soon as debentures were paid the lots would be paid for.

H. T. Lloyd, who had been present to examine the water supply available for power to generate a high-pressure turbine for the town, reported that the amount of pressure at the present intake at the dam was insufficient and that in order to generate a current sufficient to light the town of Blairmore it would be necessary to secure a greater pressure. Mr. Lloyd gave an estimate of the probable cost of such a system as was necessary, also of the cost of erecting new pole lines.

A report from the chief of police for the six months ending June 30th was read and received.

The following accounts were approved: C.P.R. for letters—\$3.40, W. A. Beebe for rent—\$80.00, Blairmore Hardware Co. \$4.50, W. J. Bartlett \$12.00.

Beebe Drain—That By-Law No. 26 be given its first reading. Carried.

Hinde Macleod—That By-Law No. 26 be given its second reading. Carried.

Sinclair Drain—That By-Law No. 26 be given its third reading. Carried.

By-Law No. 26, to provide for the borrowing of the sum of \$25,000 to meet the requirements of the Town until the taxes are collectable was finally passed.

On motion By-Law No. 21, was read a second and third time. This is a by-law governing the waterworks system. No other business the meeting adjourned at 9:45.

At the Sanatorium

Among the week-end guests at Sanatorium were H. A. Howard and H. J. McCarty, W. F. McNeil, H. G. Berry, and H. S. Davis, Calgary; J. Hanna, W. L. Linton, A. K. Lavan, Vancouver; J. E. Smith, Fernie; J. E. Gillis, Blairmore; C. K. Cavan, Toronto; O. J. Kater, D. Normandy, E. Oakes, F. Cameron, Lethbridge; Miss Treer, D. Dunlop, Ottawa; Mr. and Mrs. J. M. Windsor, Bellevue; John J. Burns, Pittsburg, Pa.; C. H. Baker, Des Moines, Ia.

Monumental Crime

John Britton's voice was negatively for peace.

He was walking over past the Critchman monument in London with one of his sons, then a lad. Everyone knows that the word Critchman is engraved on the monument. The boy pointed to the monument, and to the word upon it, and asked:

Father, what is that?

That, said John Britton, pointing at the word, is a crime.

SHE WAS HELPLESS FOR TWO YEARS

WHY MRS. BALDWIN RECOMMENDS DODD'S KIDNEY PILLS

Could find Nothing to Cure Her Rheumatism Till Dr. Dodd's Kidney Pills

Mrs. W. A. Baldwin, a highly respected resident of this place, writes:

"I was nearly helpless for two years, due to rheumatism from the doctor, and tried several other remedies but nothing helped me. Then one of my neighbors advised me to take Dodd's Kidney Pills. I bought four boxes, and they helped almost from the first. I have used nearly two dozen boxes, and am nearly cured."

That rheumatism is one of the results of diseased kidneys is again shown in Mrs. Baldwin's case. She had headaches, stiffness of the joints and backache, her sleep was broken and unrefreshing, and she was always tired and nervous. Her limbs ached and she was always thirsty. These are all symptoms of diseased kidneys. When the cure was found, Mrs. Baldwin's kidneys, the symptoms vanished, and so did the rheumatism.

Wife Complains

Externally or internally, it is a bad thing when the pores of the skin are closed. When the pores are closed, the heat of the body is retained, and the circulation of the blood is impeded. This leads to various diseases, such as rheumatism, skin diseases, and general debility.

These Women

Everything my husband touches turns to gold.

Then you didn't really bleach your hair, after all?

The Johnsons

The Johnsons, according to a recent story, had an old man who insisted upon accepting her mother's name for a daily egg in the coal cellar. I can't think, friend Mrs. Johnson, as she and her small son, together hunted for a bunch of eggs in the coal cellar, one fine instance upon which to lean.

Why that's easy, mother, explaining to Jack in astonishment.

See you the sign. Now is the time to get to your coal.

A bomb exploded at an observatory.

Evidently a desire to make them set.

Please the Home Folks

Post Toasties

They are among the good things to eat, but not in the cook book, because they require no cooking.

Toasties are always crisp and appetizing—ready to eat direct from the package. You save heaps of time and avoid hot work in the kitchen.

Some rich cream—sugar if you want it—or cool fruit juice, with these fluffy bits of corn and you have a dish that is fascinating for any meal of the day.

Toasties are sold by grocers everywhere.

FARM WOOLGOTS

Rapid Increase in Value Through Timber Scarcity

With the increasing inaccessibility of the forests and the consequent scarcity of wood, the small wooded areas common on the farms of the prairie are also increasing in economic value. They frequently occupy sites suited for agriculture and with a little care can be made to furnish the farmer with a continuous revenue in the form of poles, rails, posts and structural timbers.

Unfortunately these woodlots are frequently allowed to deteriorate through carelessness or lack of knowledge on the part of the farmer. He takes great care to farm his agricultural lands to the best advantage, but often fails to realize that by farming his woodlot with the same care, he could get the same increase in productiveness. Cattle and weeds are not permitted to grow in the woodlot, and a what-if, yet in the prairie, where the trees are so numerous, the farmer allows them to increase in value, removing only the trees best suited to his needs.

To save the farmer from himself, the Dominion Government has appointed a technical forester with headquarters at the Forestry Branch, Ottawa, whose principal duty is to advise him on all matters relating to his woodlot, and, if desired, give free advice on the best method of improving it.

It is a good idea for the farmer to have a technical forester inspect his woodlot. The forester will advise him on the best method of improving it, and, if desired, give free advice on the best method of improving it.

Coal Prices Rise

Nora Scott and Cassa Breton offer are the first yearling for about tons of coal the same prices which had been applied to long tons. This is equivalent to raising prices precisely 12 per cent.

Four-year-old Donald lived near the

carbon works, and liked to watch the men coming from their work as black as if they worked in the carbon works. One evening as he was walking on the veranda for his black friends, the greys passed the house with a baby in a carriage. Donald crawled upon the curb where he would have a view and in a little while, called: "mamma, come quick and see the little carbon works baby."

A Dutchman was going to cross a bridge, he was riding in a little cart drawn by a goat. The toll man called out and said:

Here, you've got to pay toll before you can pass this bridge.

What, to pay toll?

Yes, 8 cents to cross this bridge. When the answer the Dutchman said the 8 cents and went on. In the evening he came back again, only this time he had the goat sitting on the seat, and he was dragging the cart himself.

That's what the toll man and said: Here, you know you've got to pay toll.

The Dutchman asked his head, and pointed to the goat, said:

Shut that to me, ask the driver.

Reduced by Asbestos. The content is a dreadful state of hopeless exhaustion. Early use should be made of the famous Dr. K.

Dr. Kellogg's Asbestos Remedy, which many have tried and found it to be the best on the air passages and lungs, and it is the best remedy for the throat when it is present in the least degree should be without this great remedy.

WINDSOR TABLE SALT

Mystery Explained

Olivia--often wonder who those folks who married Mrs. C. Doyle have a new building going up.

Olivia--Harry? They are the men who started in the morning to look for work, and compromise by looking for a new building.

Where are you going senator? You see, I'm busy. Got to take this package of salt and get it to the parliament to be assayed, then I must send some news to one of my constituents, and find some more salt for a man who says he's voted for me last fall.

Symptoms Warn to Remove the Cause

The ordinary doctor spends his life in treating symptoms rather than removing the cause of trouble. The reaction is most striking on the system, and the result is that the patient is made weaker and weaker.

Summer School At Pincher Creek

Arrangements have been completed for the big summer school which opens here on August 13 under the auspices of the Methodist church of Alberta. Formerly there were three of these schools held in the province each summer, but this year the number has been cut down to two. Nevertheless, under this arrangement, however, the officers of the local church have been able to secure one of the schools for Pincher Creek.

These summer schools mean a good deal to the communities in which they are held. They are well advertised all over the country, and it is quite safe to say that Pincher Creek will receive more good publicity through the summer school than it will from any other source this year.

A number of the best speakers in the country will be present at this school, including J. P. Westman who delighted a Pincher Creek audience a short time ago with his illustrated lecture. The mornings will be given up to the various branches of religious study, while the afternoons will be occupied with organized sport of various kinds, and the evenings will be taken up with lectures and other methods of entertainment.

While this school is under the jurisdiction of the Methodist church, it is nevertheless non-denominational and any person may attend and go into camp.

Department to Cope With Serious Problem

The financial conditions of the last few months have made it necessary for the Department of Neglected Children to do an extremely large amount of work. The work has been so extensive that it has almost been impossible to cope with the situation. During the past three months something over one hundred children have been placed in foster homes and some thing over six hundred cases have been dealt with.

The brunt of the effect of depression naturally comes to those who are employed on intermittent work at low wages with the result that there is more or less of a tendency to family desertion during these times of plenty of work and low wages.

The problem of family desertion is a serious one and has to be handled in a delicate way, as in many cases the father and child are denoted as anxious that no publicity shall be given to the family desertion and thereby many men escape punishment, which is really their due.

Men who are guilty of family desertion are liable to prosecution under the criminal code and can be sent to jail for long terms and it is the intention of the Alberta authorities to prosecute to the limit those who disregard their responsibilities in this connection.

It is impossible to expect any good to come from the concealment of family desertion. In many cases if a little stamina is used the result will be satisfactory in the long run, because it will be possible by a certain amount of sacrifice to tide over the situation and in the end conditions coming right again the home will be held together and the man have the family rights which he has obligated himself to by marriage and the rearing of a family.

The cowardly action of family desertion has not yet got for any

man a large degree of satisfaction. A helpless child thrown on a community, in many cases, is possibly better off without a father than with the stamp of man who is willing to desert his responsibilities, as a father, but in the majority of cases the men are stampeded by circumstances and do not have enough grit to fight the situation through. This is an unfortunate condition of affairs and it is one which can only be remedied by the community during the last few months as a general rule are inexcusable. Men who have contracted extravagant habits in good times find it is not always possible to stop these habits and they possibly run into debt and finally skip the country because they have become afraid of the consequences. If a man is honest and fair there is no reason why he should not go to his creditors with a fair statement of his condition and have the matter properly adjusted.

While the Attorney-General's Department is more than willing to assume any responsibilities in cases of actual need and child neglect, they are determined that the matter of family desertion must stop and examples be made of those who are playing the part of the coward and trying by underhanded means to throw the responsibility of their families upon the shoulders of other people.

"Especially," and "Then Some!" Oddfellows will enjoy the rolling mountain breezes at Blairmore on Thursday. Who wouldn't be an Oddfellow this year, especially if they skip the picnic every day—Lethbridge Herald.

James Coumce Dies in Arizona

Port Arthur, July 23.—James Coumce, ex-M.P., died at Prescott, Arizona, today, which was the culmination of an illness of five years. His illness began several years ago. He was a prominent man of affairs and public man. He was born in Sutherland, Ont., on October 13, 1848. He received his early training at Owen Sound and returned himself early in life to lumbering, raising and contracting. He built several miles of the C.P.R. and the Atlantic Coast railway, and later the Canadian Northern railway. He was a strong advocate of New Ontario. He was the first president of the Ontario mining institute in 1891. He was mayor of Port Arthur and occupied many public positions in the city of Port Arthur where he spent most of his life.

But he was best known as a public man. He was elected to the Ontario legislature in 1885, 1890, 1900, 1901. He resigned to contest the dominion riding of Nipissing in 1906, but was defeated. After the election it was found that his resignation was not technically effective and he was still a member of the provincial legislature. He was re-elected in 1908 and 1907. He resigned in 1904 and was elected to the Dominion house as member for Thunder Bay and Rainy River.

He served in the Eighth New York Cavalry under General Cassin in the American war. He was married in 1874 to Emily Florence Cox of Montreal. He had a daughter, Mrs. W. H. Whelan, Mrs. J. J. Kelly, Miss Louise Coumce and Mrs. E. Coumce. He was a Liberal and a Roman Catholic.

Mr. Coumce was a very forceful man. Though not an eloquent speaker, he was a strong, energetic speaker with a striking personality.

Pleasure Seekers

From Macleod

A party of pleasure seekers motored to the Rocky Mountain Sanatorium for the week end, from Macleod. The party was composed of Mrs. G. H. Aldrich and Mrs. Mr. and Mrs. E. Foster Brown, Miss G. W. Smith, Mr. and Mrs. A. E. Gray, Mr. and Mrs. A. T. Leather, Miss Matheson, Dr. and Mrs. Bruce, Mr. and Mrs. A. D. Ferguson and son. They left for the return trip to Macleod on Sunday evening. The party had made several trips to the Sanatorium, and always received plenty with the resort and the scenery and climate hereabouts.

Amalgam service will be held

at the Oddfellows hall on Sunday evening.

W. T. and Mrs. Eddy, of Lund, back, back in the Oddfellows plain yesterday.

A man was noticed entering the Oddfellows hall through a rear window on Tuesday evening, while an accomplice, who is well known, held the ladder. After the appearance of a vest an exit was made through the back door. The matter will be looked up.

A well-known Blairmore grocer,

last week, in making preparations for the entertainment of a guest, placed a couple of bottles of "Alberta's Pride" in the wine cupboard. Several hours afterward when the dinner arrived and the grocer prepared the refreshments it was discovered that the bottles contained poison. Two little boys, who entered the goods being placed away, were responsible for the disappointment. Naughty boys!

Though not an eloquent speaker, he was a strong, energetic speaker with a striking personality.

Sanatorium Crib-

bage League

The big summer tournament which has been in progress between the guests of the Sanatorium, is creating considerable interest of late, and as a result the tennis courts and other pleasure resorts in that locality have become literally deluged.

Those taking in the tournament are Messrs A. C. Beach, J. C. Bond, P. Carruthers, S. G. Lake, H. Moore, I. Ryan, T. Smith, N. Snodden, H. N. West and Mrs. K. West. Four hundred games have to be played. At the end of the first week, Carruthers had leading percentage and his fair to be the winner. Excitement is running high, especially among the ladies. In board, where the score means to use a club, able to be used to keep intensely interested parties back.

CAUSES OF STOMACH TROUBLES

Constipation, indigestion, lack of rest, over-exercise, insufficient meal-time of food, anxiety, overeating, partaking of food and drink not suited to your age and occupation. Correct your habits and take Chamberlain's Tablets and you will soon be well again. For sale at all dealers.

Rev J. C. Syme will deliver

his lecture entitled "Unperished Parables" at the Central Baptist church on Monday night next. Everybody welcome. A collection will be taken.

A bold attempt at burglary was made at the bedroom of F. E. Hinds at Ennis last week. A young man was effecting an entrance through a front door when the squeaking of the hinges woke the occupants. A fifteen-minute race was accomplished by the bold chap following a roar and rush from the inside.

As the demand for GREETING
CARDS of popular design is great
it is necessary that orders be
received now.

A GOOD INVESTMENT

W. D. Magill, a well known
merchant of Whitman, Wis., bought
stock of Christmas greeting cards
as he is able to supply them to his
customers. After receiving them he
was billed (in his stock) and says that
you can't get small bills of Christmas
Cards. Coleman, Alberta, has more
than the rest of his entire stock of these
greeting cards. For sale by all dealers.

One of the largest single areas
newly reserved was an addition of
two thousand, six hundred and eighty-
four square miles to the Rocky
Mountains National Park. Ever
since the Rocky Mountains Park
in the neighborhood of Banff, was
created by the Government in 1885,
the reservation of the new west valley
lands on the east slope and foothills
of the Rockies has been gradually
extended, until now the reserved area
stretching from the international
boundary line, north west valley, five
hundred miles. The purpose of this
reservation policy in this case has
been two fold. Not only will this
area under forest management pro-
duce a perpetual yield of timber to
supply the needs of the settlers in
Alberta and Saskatchewan, but the
forests and parks are reservable to regu-
late and maintain an even flow of
water in the great rivers of the
plains which have their source on this
watershed. The Dominion Govern-
ment is profiting by the experience
of the United States, where in 1911,
the Weeks Bill was passed making
provision for the expenditure of nine
million dollars for the acquisition of
mountain lands located on the head
waters of navigable streams, which
lands had previously been sold to
private individuals, stripped of their
forest growth by axe and fire, and
are now being bought back by the
United States Government to be
used in order to put a stop to the
flooding and erosion on the great
rivers, having their source in these
forested areas.

As far back as 1935, Mr. J. S. Den-
ison, U.S. Chief Inspector of Sur-
veys and Irrigation, in his report
speaking of the forests on the East
slope and foothills of the Rockies,
reported, "With the destruction of
these forests will come the serious
floods and rapid run off of the
waters from this area. The perma-
nent loss of our water supply is there-
fore largely dependent upon the
protection of the forests at present
covering our watershed and this
protection can only be secured by
taking steps to prevent the devastat-
ing fires which annually sweep over
large portions of the area."

The Rocky Mountains Forest
Reserve contains the head waters of
the great rivers, the Missouri, the
South Saskatchewan, the Snake, the
Kootenai, the Athabasca and the
Peace. All this water descends from
an elevation of eight to ten thousand
feet in the mountains to an elevation
of about three thousand feet in the
foothills, and in this rapid drop the
forested slopes play an immense
important part in preventing freshets
and erosion. Also by regulating the
water flow, these forested areas make
possible the irrigation of the millions
of acres of arid land in Southern
Alberta.

It is to maintain the forest cover
on this otherwise non-productive
area, that the Rocky Mountain Forest
Reserve was created. Only when set
aside as a permanent Reserve, can
the Dominion Government afford to
make the costly improvement meas-
ures for the effective regulation of
forest fires. Only about ten per cent
of this Reserve carries a stand of
merchantable timber, the remaining
ninety per cent being either barren
rocky timber line or covered with
young growth, mostly of lodge pole
pine. If fires are kept out, this
young growth will in a few years,
attain merchantable size and be a

To Ensure Protection Of Forest Reserves

It has been a well defined policy of
the Dominion Government ever since
the Forestry Branch was created, to
set aside non-agricultural lands for
forest reserves as rapidly as accurate
forest surveys of such lands could be
made so that the valuable timber and
agricultural lands in Western Canada
would be aggregated as Forest Reser-
ves before the incoming settlers took
up homesteads in these districts. As
a result of this policy, there were at
the beginning of the year, twenty-
five Dominion Forest Reserves in the
four western provinces with an area
of twenty-five thousand, one hundred
and forty square miles. By the
amendment of the Dominion Forest
Reserves and Parks Act passed on
June 6th, 1913, five new reserves
were created, and the boundaries of several
other reserves extended, making a
total of ten thousand, eight hundred
and thirty square miles for the
reserved area, which added to that
already under reservation makes al-
most thirty six thousand square
miles under Dominion Forest Reser-
ves.

One of the largest single areas
newly reserved was an addition of
two thousand, six hundred and eighty-
four square miles to the Rocky
Mountains National Park. Ever
since the Rocky Mountains Park
in the neighborhood of Banff, was
created by the Government in 1885,
the reservation of the new west valley
lands on the east slope and foothills
of the Rockies has been gradually
extended, until now the reserved area
stretching from the international
boundary line, north west valley, five
hundred miles. The purpose of this
reservation policy in this case has
been two fold. Not only will this
area under forest management pro-
duce a perpetual yield of timber to
supply the needs of the settlers in
Alberta and Saskatchewan, but the
forests and parks are reservable to regu-
late and maintain an even flow of
water in the great rivers of the
plains which have their source on this
watershed. The Dominion Govern-
ment is profiting by the experience
of the United States, where in 1911,
the Weeks Bill was passed making
provision for the expenditure of nine
million dollars for the acquisition of
mountain lands located on the head
waters of navigable streams, which
lands had previously been sold to
private individuals, stripped of their
forest growth by axe and fire, and
are now being bought back by the
United States Government to be
used in order to put a stop to the
flooding and erosion on the great
rivers, having their source in these
forested areas.

As far back as 1935, Mr. J. S. Den-
ison, U.S. Chief Inspector of Sur-
veys and Irrigation, in his report
speaking of the forests on the East
slope and foothills of the Rockies,
reported, "With the destruction of
these forests will come the serious
floods and rapid run off of the
waters from this area. The perma-
nent loss of our water supply is there-
fore largely dependent upon the
protection of the forests at present
covering our watershed and this
protection can only be secured by
taking steps to prevent the devastat-
ing fires which annually sweep over
large portions of the area."

The Rocky Mountains Forest
Reserve contains the head waters of
the great rivers, the Missouri, the
South Saskatchewan, the Snake, the

water flow, these forested areas make
possible the irrigation of the millions
of acres of arid land in Southern
Alberta.

It is to maintain the forest cover
on this otherwise non-productive
area, that the Rocky Mountain Forest
Reserve was created. Only when set
aside as a permanent Reserve, can
the Dominion Government afford to
make the costly improvement meas-
ures for the effective regulation of
forest fires. Only about ten per cent
of this Reserve carries a stand of
merchantable timber, the remaining
ninety per cent being either barren
rocky timber line or covered with
young growth, mostly of lodge pole
pine. If fires are kept out, this
young growth will in a few years,
attain merchantable size and be a

source of timber ample to the settlers
eastward from its border, where it
furnishes fuel for the home and
for hundreds of miles, there is abso-
lutely no free growth. It will also
furnish ample scope for the many
timber now being operated on the
Reserve. It has been estimated by
Geological surveys that over twenty-
one and one-half million tons of
coal exist in the Alberta and
Saskatchewan fields, and the
mining of which will require over
forty-five billion feet of mine
props, the product of one million
cords of timber for fifty years. If the
trees are not kept out this young
growth will be destroyed, there will
be no mature trees left to seed the
burnt areas and a vast barren will be
the ultimate result.

There can be no question as to
the advisability of making these reser-
vations. It is only possible criterion is
that not enough, more have been
created, and the boundaries of several
other reserves extended, making a
total of ten thousand, eight hundred
and thirty square miles for the
reserved area, which added to that
already under reservation makes al-
most thirty six thousand square
miles under Dominion Forest Reser-
ves.

since the Rocky Mountains Park
in the neighborhood of Banff, was
created by the Government in 1885,
the reservation of the new west valley
lands on the east slope and foothills
of the Rockies has been gradually
extended, until now the reserved area
stretching from the international
boundary line, north west valley, five
hundred miles. The purpose of this
reservation policy in this case has
been two fold. Not only will this
area under forest management pro-
duce a perpetual yield of timber to
supply the needs of the settlers in
Alberta and Saskatchewan, but the
forests and parks are reservable to regu-
late and maintain an even flow of
water in the great rivers of the
plains which have their source on this
watershed. The Dominion Govern-
ment is profiting by the experience
of the United States, where in 1911,
the Weeks Bill was passed making
provision for the expenditure of nine
million dollars for the acquisition of
mountain lands located on the head
waters of navigable streams, which
lands had previously been sold to
private individuals, stripped of their
forest growth by axe and fire, and
are now being bought back by the
United States Government to be
used in order to put a stop to the
flooding and erosion on the great
rivers, having their source in these
forested areas.

The Rocky Mountains Forest
Reserve contains the head waters of
the great rivers, the Missouri, the
South Saskatchewan, the Snake, the
Kootenai, the Athabasca and the
Peace. All this water descends from
an elevation of eight to ten thousand
feet in the mountains to an elevation
of about three thousand feet in the
foothills, and in this rapid drop the
forested slopes play an immense
important part in preventing freshets
and erosion. Also by regulating the
water flow, these forested areas make
possible the irrigation of the millions
of acres of arid land in Southern
Alberta.

It is to maintain the forest cover
on this otherwise non-productive
area, that the Rocky Mountain Forest
Reserve was created. Only when set
aside as a permanent Reserve, can
the Dominion Government afford to
make the costly improvement meas-
ures for the effective regulation of
forest fires. Only about ten per cent
of this Reserve carries a stand of
merchantable timber, the remaining
ninety per cent being either barren
rocky timber line or covered with
young growth, mostly of lodge pole
pine. If fires are kept out, this
young growth will in a few years,
attain merchantable size and be a

source of timber ample to the settlers
eastward from its border, where it
furnishes fuel for the home and
for hundreds of miles, there is abso-
lutely no free growth. It will also
furnish ample scope for the many
timber now being operated on the
Reserve. It has been estimated by
Geological surveys that over twenty-
one and one-half million tons of
coal exist in the Alberta and
Saskatchewan fields, and the
mining of which will require over
forty-five billion feet of mine
props, the product of one million
cords of timber for fifty years. If the
trees are not kept out this young
growth will be destroyed, there will
be no mature trees left to seed the
burnt areas and a vast barren will be
the ultimate result.

There can be no question as to
the advisability of making these reser-
vations. It is only possible criterion is
that not enough, more have been
created, and the boundaries of several
other reserves extended, making a
total of ten thousand, eight hundred
and thirty square miles for the
reserved area, which added to that
already under reservation makes al-
most thirty six thousand square
miles under Dominion Forest Reser-
ves.

One of the largest single areas
newly reserved was an addition of
two thousand, six hundred and eighty-
four square miles to the Rocky
Mountains National Park. Ever
since the Rocky Mountains Park
in the neighborhood of Banff, was
created by the Government in 1885,
the reservation of the new west valley
lands on the east slope and foothills
of the Rockies has been gradually

ALBERTA

Thirteen additional instruments have arrived for the Coleman brass band. Coleman's band will soon be a close rival for the noted Lethbridge city band.

Seven members of the Blairmore football team played. Hooper on the local grounds on Saturday evening. The score was 4-1 in the visitors' favor.

Local and General

J. E. Rice, of Calgary, came to town on Saturday.

H. J. Poxit is erecting a stable on Eighth Avenue.

J. A. McDonald returned from the South Fork yesterday.

The local business establishment closed on Thursday afternoon.

A. McLeod paid a business visit to Macleod the early part of the week.

Mr. and Mrs. Everall came up from Lethbridge for the I. O. O. F. picnic.

Mr. McRae, the Macleod blacksmith, came up for Thursday's picnic.

Mrs. E. Escott and children, of Coleman, took in the Oddfellows' picnic.

The best dressed window in town on Thursday was that of the F. M. Thompson Co.

The Presbyterian mission hall was this week moved to a new site on Fifth Avenue.

J. Stafford, of Everall & Franks, Lethbridge, took in the Oddfellows' picnic yesterday.

Frank Cicciardi has opened a grocery store on the ground floor of the Oddfellows' hall.

Thompson's motto on Thursday was "We cater to Oddfellows, and nothing is too good for them."

A. W. Hoyer, manager of the Moose Jaw Syndicate, returned from Moose Jaw on Wednesday.

R. T. Spruile, J. Lackie, J. Stewart, and T. Owen, of Corbin, B.C., were in town on Wednesday night.

A. Bowers and G. Cameron returned from the South Fork Sunday night with full baskets of trout.

William Simpson and Anson Chester Beach, of Frank, have been appointed Justices of the Peace.

The U. F. A. held a picnic at Costa's ranch, Cowley, on Saturday. A good programme of sports was carried out.

The camera men were busy on Thursday, and many fine pictures were taken of the town in her colors and of the procession.

There will be a special meeting of the Order of Owls on the night of Thursday, July 31st, when a full attendance is requested.

A. Neidig, of Lethbridge, came to town on Tuesday with a special carload of building and decorating materials for the 24th.

Rev. Dr. Ferguson, superintendent of Presbyterian missions, occupied the pulpit at the Presbyterian church on Sunday evening last.

Owing to a slight derailment of Sunday's west bound passenger train, near Lundbreck, the train did not reach here till 2:30 p. m.

Dr. J. Wright, dentist, will open permanent parlors at Taber, and would be pleased to attend to his Blairmore patrons from that point.

The body of Robert Paddon, son of J. B. Paddon, who was drowned near Edmonton recently, was recovered and given burial at Edmonton last week.

A. Bouchie, of Minneapolis, arrived at Bellevue this week. Mr. Bouchie has spent a few minutes in Vancouver and speaks very highly of the Pacific gateway.

Gene Crain, of the "Enterprise," had three two-pound trout on Wednesday near the Grand Falls. "Gene" says no bait can beat a stuffed cockroach skin.

A. P. Seale and A. S. Julian, organizers of the Order of Owls, came in from Hooper on Saturday. They installed the officers of Bellevue lodge on Sunday night.

Rev. J. C. Symamore, of First Baptist church, Calgary, will preach the anniversary sermon at the Central Baptist church on Sunday next. Mr. Symamore is one of the most popular and interesting speakers of the Province.

Happenings in and Around Bellevue

George Nobb spent Sunday in Fernie.

Harry Quigg has returned to the camp from Fernie.

Miss May Taylor, of Maple Leaf, is visiting in Calgary.

The Jones Bros. circus played at Bellevue on Tuesday.

Mr. David Davidson is erecting a story-and-a-half house.

Walter Mills has taken over one of the teams at No. 1 mine.

Mrs. D. Slack, of Fernie, is the guest of Mrs. Gilbert Cousins here.

Geo. Christie and Robert Cousins visited Crow's Nest on Sunday.

Mrs. Joseph Robinson has been visiting in Winnipeg for a few days.

T. M. Burnest went on a fishing excursion to the North Fork on Wednesday.

A big bunch spent Sunday on the South Fork and brought home lots of trout.

Mrs. Stephenson and family arrived in the camp from Diamond City last week.

Mr. and Mrs. Archie Barcey have moved up from Fernie and will locate here.

Harry Campbell has resigned his position as trainer for the local football aggregation.

Malcolm Link has returned to the camp from the north, and is working at No. 2 mine.

Mrs. Colin McGillivray, of Lethbridge, is the guest of Mrs. J. D. McDonald for a few days.

Peter McGovern and family have moved up from Michel and will occupy house No. 40.

The Misses McKelvie, of Calgary, are visiting here, the guests of Mr. and Mrs. E. W. Christie.

We don't hear many boasts of the extraordinary features of Jones Bros' circus. It was the mildest form of imaginary boasts that has ever visited The Pass.

Mr. Brennan, of Macleod, was in town the early part of the week. Mr. Brennan is the well-known baker of the prairie city, and contemplates opening a bakery in The Metropolis.

The Fairmont hotel at Maple Leaf was officially opened on Monday night. About two hundred people were in attendance, and dancing followed the prominent feature in the programme.

A resident of Beard's Camp appeared before Justice Grohman on Tuesday to answer to the charge of being drunk and disorderly on Monday night. For displaying his rosydism and desire for pugilism the gay boy was fined \$10 and costs.

In the eighth round of a scheduled fifteen-round bout between Freddie Welsh, the English lightweight champion, and Martin Murphy, champion of the western States, which took place at Fernie on Tuesday night, Murphy took the count.

Two marriages were solemnized by Mr. W. T. Young at Frank on Saturday last. One was that of Karl Pokorney to Rosa Ciegala, which took place at the home of Frank Pokorney; the other was Theophile Pirlot to Marie Louise Coblent. All the parties belonged to Frank.

P. M. Thompson's delivery horse took a tumble Tuesday while about to be unharnessed. Coming up Fifth Avenue the animal struck photographer Brownell, throwing him to the ground and injuring his legs and shoulder. On Victoria Street the runaway outfit collided with the standing wagon of J. P. Lank, where its wagon was left entangled minus a shaft. Mr. Lank received a scare, from which it took considerable time to recover. The runaway animal was captured later down by the river.

Master Willie Cousins broke his arm just above the wrist while playing football one day last week.

Mr. and Mrs. William Watson, of Coleman were the guests of Mr. and Mrs. John Hutton, on Sunday.

Quite a bunch of the Bellevue sporting fraternity took in the night game on Tuesday night.

The new Fairmont hotel at Maple Leaf was formally opened last week with a dance and supper.

Miss Clara Pearson, of Calgary, and Mrs. Eugene Pearson, of Edmonton, are visiting their parents here.

Mrs. J. A. Irwin, of Clinton, Ontario, is visiting in Bellevue, the guest of her son, the Rev. W. H. Irwin.

Thos. Longhurst went to Lethbridge on Monday to meet his wife who is returning from a visit to the old land.

Mrs. E. H. Christie has been laid up for a week with a sprained ankle. We are pleased to see her around again.

The fan at the head of No. 1 mine was struck by lightning on Monday and closed things down for a day or two.

The foundation for the new school is completed. It is hoped that the building will be ready for use early in the fall term.

The local Sunday school, which has been closed up for some time on account of the epidemic of measles, reopened last Sunday.

The Bellevue band rendered an upon air concert last Sunday evening. Next Sunday they will play at Hillcrest at 2 o'clock in the afternoon.

Dr. and Mrs. MacKenzie have returned from a trip through the United States where the doctor has been taking in the climates at some of the prominent hospitals.

The local football association entertained their friends together with the Coal Creek team and returned as a member in the Socialist hall on Saturday night.

The Ramblers' Club completed their second annual camp at Crow's Nest last week. The boys were in charge of W. H. Irwin and Walter Mills. Weather conditions, etc., made it possible for the boys to have the time of their lives, and it was with deep regret that they had to start for home.

Mr. J. McPhail Waggett, the eminent lecturer, will visit some friends in The Pass shortly. An effort will be made to get him to give his famous lecture on "Mark Twain," in Bellevue, and at other Pass points. If the effort is successful, it will give The Pass a literary treat seldom recalled. Mr. Waggett is bubbling over with humor and is an artist at entertaining.

The Bellevue and Coal Creek football aggregations met indirectly combat on the gridiron on Saturday. Everybody looked forward to this as the game of the season, and were not disappointed. Coal Creek were backed by a huge bunch of rooters as is seldom seen in The Pass, and from the first kick-off things were in an uproar. Coal Creek scored the first goal early in the game on a close shot, and at half time were in the lead with the score 1 to 0. Bellevue scored off a penalty in the second half and it looked like a draw until a few minutes before the final whistle when Tommie Marsh kicked through a goal, and won the game for Bellevue. The game was strenuous throughout and the large crowd of spectators were entertained by a series of spectacular plays. Bellevue is now tied with Coal Creek for first place in the league.
